GitHub: github.com/sarahgjacobs

Driven Full Stack developer with a background in digital media, communication, and leadership development combined with a love for continued learning. Applied strong problem solving and collaborative skills in various web development projects. Seeking fast-paced, problem-solving roles that incorporate front-end or back-end.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+, CSS3, HTML5, SQL, jQuery, Python
**Tools:** GitHub, MongoDB, MySQL, Express, React, Node, Handlebars, Query, Bootstrap, SDLC

## EXPERIENCE

**Communication and Media Coordinator**                                                   2021-2022
**Second Level Inc**                                                                      **Atlanta, GA**
- Directed entire technology team for the annual Conference
- Produced videos to promote the organization nationwide, including a conference with attendance from 50+ countries
- Assisted a weekly ESOL class for international adults and fostered one on one relationships
- Coordinated all media-related projects for entire organization to create brand unity and trust
- Cultivated a safe, welcoming community for 100+ international families with little to no English skills

**Digital Media Coordinator**                                                             2020-2021
**Comfort Farms/StagVets**                                                           **Milledgeville, GA**
- Utilized **HTML** and **CSS** on websites such as Square, Wix and Donorbox for the company's fundraisers and weekly sales, enhancing user experience through increased efficiency by driving traffic to appropriate landing pages
- Developed and created event pages on multiple websites for cohesiveness, brand awareness and community engagement
- Pioneered integral additions to websites to pursue retired veterans in need
- Redesigned online shopping system for weekly use
- Headed the development of support raising programs upwards of $50,000

**Leadership Development Coach**                                                           2015-2020
**Chick-Fil-A (Windward Parkway)**                                                        **Atlanta, GA**
- Established and oversaw generational leadership development training program for night-time leaders of an $8-10 million store
- Supervised, mentored and trained 60+ employees with a servant leadership method
- Headed daily night-time finances and computer documentation

## PROJECTS

**Carrot Calendar** github.com/thebobfather2/carrotcalendar
**Deployed Project** thebobfather2.github.io/carrotcalendar/
- Gaining over $100k in revenue per year, Bobby's Rabbits needed a simple, efficient way to coordinate community events to boost interaction and sales. Carrot Calendar is a user-friendly calendar for customers of Bobby's Rabbits to create online events, RSVP, and pitch money in the pot for games.
- Sarah oversaw the deployment of the timezone API which enabled thousands of users from Japan, South Africa, and even Europe to be able to accurately engage with the calendar.
- Tools and languages used include HTML, CSS, JavaScript, Bootstrap, APIs, Agile Methodology, DOM, and Node.js.

**Sarah Jacobs Writes** [github.com/sarahgjacobs/sarahjacobswrites](github.com/sarahgjacobs/sarahjacobswrites)
**Deployed Project** [sarahgjacobs.github.io/sarahjacobswrites/](sarahgjacobs.github.io/sarahjacobswrites/)

- Sarah is an author of many fiction books and sought to create a landing page for her fans to engage with. This website allows users to search through her biography, current work, and completed work in order to drive more sales and increase activity.
- Sarah developed the original concept, creation and deployment of this project.
- Tools and languages used include HTML, CSS, JavaScript, Bootstrap, Agile Methodology, and DOM.

## EDUCATION

**Full Stack Certificate: Georgia Tech**, Atlanta, Georgia**, 2023

- A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Progressive Web Apps, Agile Methodology, Bootstrap, React.js, Express.js, Node.js, MongoDB, MySQL, Command Line, Git, Python, Java, C#, and Amazon Web Services

**Georgia College & State University**, Milledgeville, Georgia**, 2021
